

HOW TO USE BLUE COPIER TO COPY TAG

THREE LED LIGHT, RED, BLUE, YELLOW
TWO BUTTON, READ, WRITE
WHEN OPEN THE COPIER, THE RED LED WORK

**THERE ARE TWO KEY AS BELOW, ONE IS MK3 KEY
AND ONE IS TARGET KEY
(THE KEY WILL BE USE TO COPY)**

We will use the MK3 key to copy the target key.

- 1 First step, we use the blue copier to read the target key, as below picture.
The target key close to left of copier and press the READ button.

If it ring two sounds, it means the copier copy the target key success and blue led work.
o the information of target key in the blue copier. Otherwise, not success.

- 2** Second step, we use the copier to write MK3 key, put the MK3 key close to left copier, and press the write button, as below picture show.

If it ring two sounds, it means the copier write information of target key into MK3 key success and blue led work. Otherwise, not success.

After all success, the MK3 have the same information of target key. And MK3 key will work same as the target key.
