H6 Pro Master is latest diagnosis platform made for technicians. It is an 10.1-inch industrial capacitive touch screen tablet with 4G RAM and 64G On-board memory. Adding DC / USB / VGA data transfer ports, it makes data transfer and image mapping more convenient and faster.

It is easier to get our app and system update that OTA, USB and app offline update are supported. XVCI MAX can work with OEM software alone. It also supports SAEJ2534-1 and SAEJ2534-2 two international programming protocols and many ECU programming. With powerful functions, stable features, professional data, it is a professional ECU programming equipment for all cars maintenance shops.

Supported Protocols:

ISO-9141 K-Line	ISO-14230 K-Line	ISO-15765 CAN
SAE-J1850-VPW (GM Class2)	SAE-J1850-PWM (FORD SCP)	ISO-11898-2 DWCAN
ISO-11898-3 DWFTCAN	SAE-J2411 Single Wire CAN (GMLAN)	VAG TP16 CAN
VAG TP20 CAN (SAE-J2819)	VAG KW81 (SAE J2818)	SAE-J2610 SCI (Chrysler)
SAE-J1567 CCD BUS (Chrysler)	SAE-J2740 GM ALDL	SAE-J2809 (HONDA DIAG-H)
NISSAN DDL UART with CLOCK	BMW DS2	FORD UBP

Specifications:

CPU	RK3288	Communication:	WiFi / BT
Operation System:	Android	Battery Capacity:	10,000mA
Display:	10.1 inch	Ports:	USB3.0, HDMI, DC (2.5), VAG (DB15)
RAM:	4G	Camera:	8.0 Megapixel, AF with flashlight
ROM:	64G	Resolution:	1280*800P (16:9)
